

Magna Gloss 25

Superior Metal Interlock Floor Finish

High Gloss

Detergent Resistant

Long Wearing

Machine Scrubbable

Anti-Slip

25% Solids

Magna Gloss 25 has been specially formulated to provide a strong, long wearing, clear, polymeric/acrylic finish for both resilient and non-resilient floors. It may be used over **Black Beauty II** and **Undercoat** sealers.

Magna Gloss 25 can be reapplied time after time without having to strip the previous coats for up to 3 to 5 years. Multiple coats can be applied to give a depth of gloss that does not yellow with age.

Magna Gloss 25 may be mopped every day (with a neutral cleaner like **Kwik Mop**) and is exceptional for high traffic areas. It gives the "Wet Look" desired without buffing.
